PROFESSIONAL SUMMARY

A dedicated and detail-oriented developer with 4+ years of experience building and optimizing web applications using React.js, Next.js, TypeScript, Node.js, and MS SQL Server. Skilled in designing responsive UI, dashboards, PDF/report generation, analytics, and collaborating in Agile teams.

SKILLS & TECHNOLOGIES

Frontend : React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap

Backend : Node.js, Express.js, RESTful APIs, JWT, Microservices

Database : MS SQL Server, MySQL, PostgreSQL, MongoDB, Sequelize ORM

State Management : Redux, Redux Toolkit, Context API

Tools : Git, Postman, JIRA, AWS S3

Other : Jest, Debugging, Performance Tuning, Agile (Scrum), Cross-functional Teamwork

EXPERIENCE

China Jiangsu International Economic and Technical Ltd

Feb 2025 – Apr 2026

Frontend Developer

Riyadh, Saudi Arabia

- Developed scalable applications using React.js, Redux, Node.js, and MS SQL Server
- Implemented PDF generation and download functionality for reports and HR documentation
- Built interactive dashboards using React Chart.js to visualize key metrics
- Developed Employee Management System with role-based access, attendance, leave, and HR management
- Developed Construction Project Dashboard for project tracking, resource allocation, and financial summary
- Collaborated with backend developers to integrate RESTful APIs effectively

BellMedEx Medical Billing Enterprises (private)limited

Feb 2023 – Jan 2025

Frontend Developer

Islamabad, Pakistan

- Developed scalable and efficient frontend applications using React.js, Next.js, and Redux
- Integrated react-pdf and react-to-print for in-app PDF viewing and printing functionality
- Built dashboards using react-chartjs-2 for data visualization and user engagement tracking
- Enhanced UI components using reusable patterns and Tailwind CSS for responsive design
- Collaborated with backend developers to integrate RESTful APIs for dynamic data rendering

Systems Limited

Jan 2022 – Dec 2022

Frontend Developer

Islamabad, Pakistan

- Built interactive web applications using React.js and Next.js
- Implemented state management with Redux for consistency across components
- Developed reusable UI components and responsive layouts using Tailwind CSS
- Collaborated with backend and QA teams to deliver production-ready features in Agile sprints

PROJECTS

Employee Management System

- Developed a web-based employee management system using React.js and Vite for high performance
- Integrated Redux for global state management across attendance, leave, and HR features
- Built responsive dashboards using React Chart.js to visualize employee performance and data insights
- Implemented PDF generation and print functionality for HR reports using react-to-print and react-pdf
- Developed role-based access control (Admin/HR/Employee) with dynamic search, filter, and pagination
- Designed a responsive UI with Tailwind CSS for consistent user experience on all devices

The Right Assist

- Developed using Next.js and TypeScript, later converted into a mobile app using Capacitor
- Created service booking and scheduling components with interactive tracking features
- Integrated authentication, form validation, and secure API connections
- Designed responsive layouts and dashboards for real-time booking insights

Medifusion PMS/EHR

- Built claim management, patient scheduling, and reporting features for healthcare operations
- Designed interactive dashboards to track appointments and billing data
- Integrated PDF export and printing for claim reports and statements
- Enhanced UI components with reusable layouts and Tailwind CSS

Tlexy – Telemedicine Platform

- Designed and developed a secure telemedicine system supporting real-time audio, video, and chat
- Built appointment management and patient-doctor communication interfaces
- Integrated data visualization and performance tracking dashboards
- Focused on responsive UI and accessibility for both patients and healthcare providers

Credentialing Management System

- Developed secure credentialing workflows and document verification features
- Designed automated email notifications and verification tracking dashboards
- Integrated PDF generation for credentialing summaries and reports
- Implemented data storage and retrieval using Node.js and MS SQL
- Built analytics dashboards and exportable reports for admin review

EDUCATION

Arid Agriculture University

Bachelor of Science in Information Technology

Sep 2018 – Jul 2022

Rawalpindi, Pakistan

- **Relevant Coursework:** Web Development, Database Systems, Software Engineering, Data Structures

CERTIFICATIONS

Frontend Development with React.js

2025

HackerRank

- Completed certification in React.js frontend development
- [View Certificate](#)

Problem Solving (JavaScript)

2025

HackerRank

- Achieved certification in JavaScript problem-solving
- [View Certificate](#)

PERSONAL ATTRIBUTES

Strong Analytical and Problem-Solving Skills

Excellent Communication and Teamwork

Time Management and Adaptability

Continuous Learning and Growth Mindset

LANGUAGES

English : Proficient | **Arabic** : Learning
